#### **Cultural Trust Interest**

## **Revenue Description**

The Cultural Trust is one of several trusts set up with money from the coal severance tax. The interest money from this fund is used primarily for works of art in the capitol and for other cultural and aesthetic projects. For more information on the coal permanent trust earnings and distributions, see the chart in the Coal Severance Tax section.

## **Statutory Reference**

Distribution - 15-35-108(6), MCA; 22-2-305, MCA

**Applicable Tax Rates: N/A** 

**Collection Frequency: Monthly** 

## Distribution

All income from the trust is deposited in a state special revenue fund to be appropriated for protection of works of art in the state capitol and for other cultural and aesthetic projects.

## **Forecast Risks**

- Short and long-term interest rates
- Bond rates
- Coal price and production

# **Revenue Estimate Methodology**

#### Data

The Board of Investments (BOI) provides historic interest earnings from the trust as well as the gains and losses from the sale of investment instruments. Projections of interest rates are provided by IHS, and historic earnings are provided from SABHRS.

## **Analysis**

Each of the following interest or income components are estimated independently and combined to produce the estimate:

- Trust fund bond pool (TFBP)
- Short-term investment pool (STIP)
- New trust deposits

TFBP earnings are forecast by applying estimated return rates, provided by the BOI, to the current and forecast trust balance.

STIP interest is earned on the temporary investment of trust funds. Funds are acquired from activities such as new deposits and investment sales. Funds are held in STIP until the BOI determines that conditions are favorable for deposit in the TFBP. Short-term interest forecasts from IHS are applied to money not invested in the TFBP to calculate future STIP earnings.

The 0.63% coal severance tax distribution to the cultural trust is considered new deposits. New deposits are transferred to the trust on a quarterly basis. These new trust deposits are forecast using estimates of coal severance tax collections.
